Al

BACIAMANO

After the pandemic that marked the lives of all of us, Bruno and his family had an idea that would bring new vitality to Monteleone. With the desire to create a **meeting place** where people could rediscover the joy of being together and **sharing pleasant moments**, Bruno opened a unique place in our area.

Al Baciamaano is much more than just a venue. It is a place that reflects the passion and energy of Bruno, who puts his heart into every detail. The cuisine is certainly delicious, but it is only the side dish of a larger experience. The true value of this place lies in its **welcoming atmosphere and attention to detail**.

One of the standout features of this place is the **curated drink list**, which offers a variety of creative cocktails and carefully selected drinks. Every month, there is a **new selection of new products to try**, encouraging customers to return and discover new flavors and combinations.

Monteleone now has a point of reference for those who want to spend time in good company, enjoy great food and drink extraordinary drinks. Bruno and his family have created a special place that offers much more than just dinner; it is an oasis of pleasure and sharing in the post-pandemic, and an example of **how passion and creativity can transform an idea into a unique and engaging reality**.
